**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

**NOTE 1. DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS**

DPCM Capital, Inc. (the “Company”) is a blank check company incorporated in Delaware on March 24, 2020. The Company was formed for the purpose of entering into a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (a “Business Combination”).

Although the Company is not limited to a particular industry or geographic region for purposes of consummating a Business Combination, the Company intends to focus on businesses in the technology sector. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of September 30, 2021, the Company had not commenced any operations. All activity through September 30, 2021 relates to the Company’s formation, the initial public offering (“Initial Public Offering”), which is described below, and subsequent to the Initial Public Offering, identifying a target company for a Business Combination. The Company will not generate any operating revenues until after the completion of a Business Combination, at the earliest. The Company generates non-operating income in the form of interest income from the marketable securities held in the Trust Account.

The registration statement for the Company’s Initial Public Offering was declared effective on October 20, 2020. On October 23, 2020, the Company consummated the Initial Public Offering of 30,000,000 units (the “Units” and, with respect to the shares of Class A common stock and warrants included in the Units sold, the “Public Shares” and “Public Warrants”, respectively), generating gross proceeds of \$300,000,000, which is described in Note 4.

Simultaneously with the closing of the Initial Public Offering, the Company consummated the sale of 8,000,000 warrants (the “Private Placement Warrants”, and collectively with the Public Warrants, the “Warrants”) at a price of \$1.00 per Private Placement Warrant, in a private placement to CDPM Sponsor Group, LLC (the “Sponsor”), generating gross proceeds of \$8,000,000, which is described in Note 5.

Transaction costs amounted to \$16,977,876, consisting of \$6,000,000 of underwriting fees, \$10,500,000 of deferred underwriting fees and \$477,876 of other offering costs.

Following the closing of the Initial Public Offering on October 23, 2020, an amount of \$300,000,000 (\$10.00 per Unit) from the net proceeds of the sale of the Units in the Initial Public Offering and the sale of the Private Placement Warrants was placed in a trust account (the “Trust Account”), located in the United States and invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act of 1940, as amended (the “Investment Company Act”), with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Initial Public Offering and the sale of the Private Placement Warrants, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete a Business Combination with one or more target businesses that together have an aggregate fair market value of at least 80% of the value of the Trust Account (excluding the deferred underwriting commissions and taxes payable on income earned on the Trust Account) at the time of the agreement to enter into an initial Business Combination. The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target sufficient for it not to be required to register as an investment company under the Investment Company Act.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

The Company will provide its holders of the outstanding Public Shares (the “public stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company, solely in its discretion. The public stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially \$10.00 per Public Share, plus any pro rata interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants.

The Company will proceed with a Business Combination only if the Company has net tangible assets of at least \$5,000,001 either prior to or upon such consummation of a Business Combination and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by law and the Company does not decide to hold a stockholder vote for business or other reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the “Amended and Restated Certificate of Incorporation”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by law, or the Company decides to obtain stockholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Sponsor has agreed to vote its Founder Shares (as defined in Note 6) and any Public Shares purchased during or after the Initial Public Offering in favor of approving a Business Combination. Additionally, each public stockholder may elect to redeem their Public Shares irrespective of whether they vote for or against the proposed transaction or do not vote at all.

Notwithstanding the above, if the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Amended and Restated Certificate of Incorporation provides that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% or more of the Public Shares, without the prior consent of the Company.

The Sponsor has agreed (a) to waive its redemption rights with respect to its Founder Shares and Public Shares held by it in connection with the completion of a Business Combination, (b) to waive its liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period (as defined below) and (c) not to propose an amendment to the Amended and Restated Certificate of Incorporation (i) to modify the substance or timing of the Company’s obligation to allow redemption in connection with the Company’s initial Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination or (ii) with respect to any other provision relating to stockholders’ rights or pre-initial Business Combination activity, unless the Company provides the public stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment. However, if the Sponsor acquires Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period.

The Company will have until October 23, 2022 to complete a Business Combination (the “Combination Period”). If the Company is unable to complete a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account including interest earned on the funds held in the Trust Account and not previously released to the Company to pay its tax obligations (less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish public stockholders’ rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company’s remaining stockholders and the Company’s board of directors, dissolve and liquidate, subject in each case to the Company’s obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company’s warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

The Sponsor has agreed to waive its liquidation rights with respect to the Founder Shares if the Company fails to complete a Business Combination within the Combination Period. However, if the Sponsor acquires Public Shares in or after the Initial Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period. The underwriter has agreed to waive its rights to its deferred underwriting commission (see Note 7) held in the Trust Account in the event the Company does not complete a Business Combination within the Combination Period and, in such event, such amounts will be included with the other funds held in the Trust Account that will be available to fund the redemption of the Public Shares. In the event of such distribution, it is possible that the per share value of the assets remaining available for distribution will be less than the Initial Public Offering price per Unit (\$10.00).

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below (1) \$10.00 per Public Share or (2) such lesser amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account due to reductions in the value of the trust assets, in each case net of the interest which may be withdrawn to pay our taxes. This liability will not apply with respect to any claims by a third party who executed a waiver of any and all rights to seek access to the Trust Account and except as to any claims under the Company's indemnity of the underwriter of the Initial Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except the Company's independent registered public accounting firm), prospective target businesses or other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

**Jam City Business Combination**

On May 19, 2021, the Company entered into a business combination agreement (the "Business Combination Agreement") with VNNA Merger Sub Corp., a Delaware corporation and the Company's direct, wholly-owned subsidiary ("Merger Sub"), Jam City, Inc., a Delaware corporation ("Jam City"), and New Jam City, LLC, a Delaware limited liability company and indirect, wholly-owned subsidiary of Jam City ("New JC LLC"), relating to the contemplated Business Combination between the Company and Jam City (the "Jam City Business Combination").

On July 23, 2021, the Company entered into a Termination of Business Combination Agreement (the "Termination Agreement") with Merger Sub, the Sponsor, Jam City and New JC LLC, pursuant to which the parties agreed to mutually terminate the Business Combination Agreement effective as of July 23, 2021. As a result of the termination of the Business Combination Agreement, the Business Combination Agreement is void and there is no liability under the Business Combination Agreement on the part of any party thereto, except as set forth in the Business Combination Agreement, and each of the transaction agreements entered into in connection with the Business Combination Agreement, including, but not limited to, (i) the Sponsor Support Agreement, dated as of May 19, 2021, by and among the Company, the Sponsor, Jam City and New JC LLC, (ii) the Stockholder Support Agreement, dated as of May 19, 2021, by and among the Company and certain stockholders of Jam City, and (iii) the subscription agreements entered into between the Company and certain investors concurrently with the execution of the Business Combination Agreement, dated as of May 19, 2021, were automatically either terminated in accordance with their terms or of no further force and effect. Pursuant to the Termination Agreement, subject to certain exceptions, the Company and Jam City also agreed, on behalf of themselves and their respective related parties, to a release of claims relating to the Jam City Business Combination. The Company intends to continue to pursue a Business Combination.

**Liquidity and Going Concern**

As of September 30, 2021, the Company had \$248,583 in its operating bank accounts, and an adjusted working capital deficit of \$1,463,059, which excludes franchise and income taxes payable of \$304,000, of which such amounts will be paid from interest earned on the Trust Account. As of September 30, 2021, approximately \$146,000 of the amount on deposit in the Trust Account represents interest income, which is available to pay the Company's tax obligations.

The Company will need to raise additional capital through loans or additional investments from its initial stockholders, officers or directors or their affiliates. The Company's initial stockholders, officers or directors or their affiliates may, but are not obligated to, loan the Company funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion, to meet the Company's working capital needs. Accordingly, the Company may not be able to obtain additional financing. If the Company is unable to raise additional capital, it may be required to take additional measures to conserve liquidity, which could include, but not necessarily be limited to, curtailing operations, suspending the pursuit of a potential transaction and reducing overhead expenses. The Company cannot provide any assurance that new financing will be available to it on commercially acceptable terms, if at all. These conditions raise substantial doubt about the Company's ability to continue as a going concern through one year and one day from the issuance of these financial statements. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

**Risks and Uncertainties**

Management continues to evaluate the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's financial position, results of its operations and/or search for a target company, the specific impact is not readily determinable as of the date of the financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**NOTE 2. RESTATEMENT OF PREVIOUSLY ISSUED FINANCIAL STATEMENTS**

In connection with the preparation of the Company's financial statements as of September 30, 2021, management identified errors made in the Company's historical financial statements where, at the closing of the Company's Initial Public Offering, the Company improperly valued its Class A common stock subject to possible redemption. The Company previously determined the Class A common stock subject to possible redemption to be equal to the redemption value of \$10.00 per share of Class A common stock while also taking into consideration a redemption cannot result in net tangible assets being less than \$5,000,001. Management determined that the shares of Class A common stock issued during the Initial Public Offering can be redeemed or become redeemable subject to the occurrence of future events considered outside the Company's control. Therefore, management concluded that the redemption value should include all shares of Class A common stock subject to possible redemption, resulting in the shares of Class A common stock subject to possible redemption being equal to their redemption value. As a result, management has noted a restatement error related to temporary equity and permanent equity. This resulted in a restatement to the initial carrying value of the Class A common stock subject to possible redemption with the offset recorded to additional paid-in capital (to the extent available), accumulated deficit and Class A common stock.

There has been no change in the Company's total assets, liabilities or operating results.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

The impact of the restatement on the Company's financial statements is reflected in the following table.

	As Previously Reported	Adjustment	As Restated
<b>Balance Sheet as of October 23, 2020 (Audited)</b>			
Common stock subject to possible redemption	\$ 274,086,120	\$ 25,913,880	\$300,000,000

In connection with the change in presentation for the shares of Class A common stock subject to redemption, the Company also restated its income (loss) per common stock calculated to allocate net income (loss) evenly to Class A and Class B common stock. This presentation contemplates a Business Combination as the most likely outcome, in which case, both classes of common stock share pro rata in the income (loss) of the Company. There is no impact to the reported amounts for total assets, total liabilities, cash flows, or net income (loss). The impact of this restatement on the Company's financial statements is reflected in the following table:

As Previously Reported	Adjustment	As Restated
---------------------------	------------	-------------

**Statement of Operations for the Period from March 24, 2020 (Inception) Through December 31, 2020 (Audited)**

**NOTE 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Presentation**

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information and in accordance with the instructions to Form 10-Q and Article 8 of Regulation S-X of the SEC. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been

condensed or omitted, pursuant to the rules and regulations of the SEC for interim financial reporting. Accordingly, they do not include all the information and footnotes necessary for a complete presentation of financial position, results of operations, or cash flows. In the opinion of management, the accompanying unaudited condensed financial statements include all adjustments, consisting of a normal recurring nature, which are necessary for a fair presentation of the financial position, operating results and cash flows for the periods presented.

The accompanying unaudited condensed financial statements should be read in conjunction with the Company's Annual Report on Form 10-K/A for the fiscal year ended December 31, 2020, as filed with the SEC on June 24, 2021. The interim results for the three and nine months ended September 30, 2021 are not necessarily indicative of the results to be expected for the year ending December 31, 2021 or for any future periods.

***Emerging Growth Company***

The Company is an "emerging growth company," as defined in Section 2(a) of the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012 (the "JOBS Act"), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company's financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

***Use of Estimates***

The preparation of the condensed financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. One of the more significant accounting estimates included in these financial statements is the determination of the fair value of the warrant liability. Such estimates may be subject to change as more current information becomes available and, accordingly, the actual results could differ significantly from those estimates.

***Cash and Cash Equivalents***

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company did not have any cash equivalents as of September 30, 2021 and December 31, 2020.

***Marketable Securities Held in Trust Account***

At September 30, 2021 and December 31, 2020, substantially all of the assets held in the Trust Account were held in U.S. Treasury securities. Interest income is recognized when earned. The Company's portfolio of marketable securities is comprised solely of U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting the conditions of paragraphs (d)(2), (d)(3) and (d)(4) of Rule 2a-7 of the Investment Company Act. Upon the closing of the Initial Public Offering and the private placement, \$300 million was placed in the Trust Account and invested in money market funds that invest in U.S. government securities. All of the Company's investments held in the Trust Account are classified as trading securities. Trading securities are presented on the balance sheet at fair value at the end of each reporting period. Gains and losses resulting from the change in fair value of investments held in Trust Account are included in interest earned on marketable securities held in Trust Account in the accompanying statement of operations. The estimated fair values of investments held in Trust Account are determined using available market information.

***Warrant Liabilities***

The Company accounts for the Warrants in accordance with the guidance contained in Accounting Standards Codification ("ASC") 815-40 under which the Warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, the Company classifies the Warrants as liabilities at their fair value and adjust the Warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in our statement of operations. The Private Placement Warrants and the Public Warrants for periods where no observable traded price was available are valued using a binomial lattice model. For periods subsequent to the detachment of the Public Warrants from the Units, the Public Warrant quoted market price was used as the fair value as of each relevant date.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

***Class A Common Stock Subject to Possible Redemption***

The Company accounts for its Class A common stock subject to possible redemption in accordance with the guidance in ASC Topic 480 “Distinguishing Liabilities from Equity.” Class A common stock subject to mandatory redemption is classified as a liability instrument and is measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that is either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company’s control) is classified as temporary equity. At all other times, common stock is classified as stockholders’ equity. The Company’s Class A common stock features certain redemption rights that are considered to be outside of the Company’s control and subject to occurrence of uncertain future events. Accordingly, Class A common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders’ equity section of the Company’s condensed balance sheets.

The Company recognizes changes in redemption value immediately as they occur and adjusts the carrying value of redeemable common stock to equal the redemption value at the end of each reporting period. Immediately upon the closing of the Initial Public Offering, the Company recognized the accretion from initial book value to redemption amount value. The change in the carrying value of redeemable Class A common stock resulted in charges against additional paid-in capital and accumulated deficit.

At September 30, 2021 and December 31, 2020, the Class A common stock subject to redemption reflected in the condensed balance sheets is reconciled in the following table:

Gross proceeds	\$ 300,000,000
Less:	
Proceeds allocated to Public Warrants	\$ (6,600,000)
Class A common stock issuance costs	\$ (16,596,320)
Plus:	
Accretion of carrying value to redemption value	\$ 23,196,320
<b>Class A common stock subject to possible redemption</b>	<b><u>\$300,000,000</u></b>

***Income Taxes***

The Company follows the asset and liability method of accounting for income taxes under ASC 740, “Income Taxes.” Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

FASB ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of September 30, 2021 and December 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception. The effective tax rate differs from the statutory tax rate of 21% for the three and nine months ended September 30, 2021 and for the period from March 24, 2020 through September 30, 2020, due to the valuation allowance recorded on the Company’s net operating losses.

***Net Income (Loss) per Common Stock***

The Company complies with accounting and disclosure requirements of FASB ASC Topic 260, “Earnings Per Share”. Net income (loss) per common stock is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding for the period. The Company applies the two-class method in calculating income (loss) per common stock. Accretion associated with the redeemable shares of Class A common stock is excluded from income (loss) per common stock as the redemption value approximates fair value.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

The following table reflects the calculation of basic and diluted net income (loss) per common stock (in dollars, except per share amounts):

	Three Months Ended September 30, 2021		Three Months Ended September 30, 2020		Nine Months Ended September 30, 2021		For the Period from March 24, 2020 (Inception) Through September 30, 2020	
	Class A	Class B	Class A	Class B	Class A	Class B	Class A	Class B
<i>Basic and diluted net income (loss) per common stock</i>								
Numerator:								
Allocation of net income (loss), as adjusted	\$ 8,473,998	\$ 2,118,499	\$ —	\$ —	\$ 19,725,247	\$ 4,931,312	\$ (794)	\$ (206)
Denominator:								
Basic and diluted weighted average common stock outstanding	30,000,000	7,500,000	—	7,500,000	30,000,000	7,500,000	—	7,500,000
Basic and diluted net income (loss) per common stock	\$ 0.28	\$ 0.28	\$ —	\$ —	\$ 0.66	\$ 0.66	\$ —	\$ —

***Concentration of Credit Risk***

Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash accounts in a financial institution, which, at times may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on these accounts.

***Fair Value of Financial Instruments***

The fair value of the Company's assets and liabilities which qualify as financial instruments under ASC Topic 820, "Fair Value Measurement," approximate the carrying amounts represented in the accompanying condensed balance sheets, primarily due to their short-term nature, except for warrant liabilities (see Note 10).

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

***Fair Value Measurements***

Fair value is defined as the price that would be received for sale of an asset or paid for transfer of a liability, in an orderly transaction between market participants at the measurement date. GAAP establishes a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). These tiers include:

- Level 1, defined as observable inputs such as quoted prices (unadjusted) for identical instruments in active markets;
- Level 2, defined as inputs other than quoted prices in active markets that are either directly or indirectly observable such as quoted prices for similar instruments in active markets or quoted prices for identical or similar instruments in markets that are not active; and
- Level 3, defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions, such as valuations derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

In some circumstances, the inputs used to measure fair value might be categorized within different levels of the fair value hierarchy. In those instances, the fair value measurement is categorized in its entirety in the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

***Derivative Financial Instruments***

The Company evaluates its financial instruments to determine if such instruments are derivatives or contain features that qualify as embedded derivatives in accordance with ASC Topic 815, “Derivatives and Hedging”. For derivative financial instruments that are accounted for as liabilities, the derivative instrument is initially recorded at its fair value on the grant date and is then re-valued at each reporting date, with changes in the fair value reported in the statements of operations. The classification of derivative instruments, including whether such instruments should be recorded as liabilities or as equity, is evaluated at the end of each reporting period. Derivative liabilities are classified in the balance sheet as current or non-current based on whether or not net-cash settlement or conversion of the instrument could be required within 12 months of the balance sheet date.

***Recent Accounting Standards***

In August 2020, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. The Company is currently assessing the impact, if any, that ASU 2020-06 would have on its financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company’s condensed financial statements.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

**NOTE 4. PUBLIC OFFERING**

Pursuant to the Initial Public Offering, the Company sold 30,000,000 Units at a purchase price of \$10.00 per Unit. Each Unit consists of one share of Class A common stock and one-third of one redeemable warrant. Each whole Public Warrant entitles the holder to purchase one share of Class A common stock at an exercise price of \$11.50 per share (see Note 9).

**NOTE 5. PRIVATE PLACEMENT**

Simultaneously with the closing of the Initial Public Offering, the Sponsor purchased an aggregate of 8,000,000 Private Placement Warrants at a price of \$1.00 per Private Placement Warrant, for an aggregate purchase price of \$8,000,000. Each Private Placement Warrant is exercisable to purchase one share of Class A common stock at a price of \$11.50 per share. The proceeds from the Private Placement Warrants were added to the proceeds from the Initial Public Offering held in the Trust Account. If the Company does not complete a Business Combination within the Combination Period, the proceeds of the sale of the Private Placement Warrants will be used to fund the redemption of the Public Shares (subject to the requirements of applicable law) and the Private Placement Warrants will expire worthless. There will be no redemption rights or liquidating distributions from the Trust Account with respect to the Private Placement Warrants.

**NOTE 6. RELATED PARTY TRANSACTIONS**

***Founder Shares***

On June 22, 2020, the Company issued an aggregate of 5,750,000 shares of Class B common stock to the Sponsor (the "Founder Shares") for an aggregate purchase price of \$25,000, for which the Company received payment for the Founder Shares on August 21, 2020. On August 18, 2020, the Sponsor transferred an aggregate of 80,000 Founder Shares to the Company's independent directors for their original purchase price of approximately \$0.004 per share. Subsequently, on August 27, 2020, the Sponsor transferred an aggregate of 70,000 Founder Shares to the Company's special advisors for their original purchase price. These 150,000 Founder Shares were not subject to forfeiture in the event the underwriter's over-allotment option was not exercised. On October 2, 2020, the Company effected a stock dividend of 1,437,500 shares with respect to the Class B common stock, resulting in an aggregate of 7,187,500 Founder Shares issued and outstanding. On October 2, 2020, the Sponsor transferred 18,750 Founder Shares to one of the Company's special advisors. On October 20, 2020, the Company effected a stock dividend of 1,437,500 shares with respect to the Class B common stock, resulting in an aggregate of 8,625,000 Founder Shares issued and outstanding. All shares and per-share amounts have been retroactively restated to reflect the share transactions.

The Founder Shares included an aggregate of up to 1,125,000 shares of Class B common stock subject to forfeiture by the Sponsor to the extent that the underwriter's over-allotment option was not exercised in full or in part, so that the initial stockholders would own, on an as-converted basis, 20% of the Company's issued and outstanding shares after the Initial Public Offering. On December 7, 2020, the underwriter's election to exercise its over-allotment option expired unexercised, resulting in the forfeiture of 1,125,000 shares by the Sponsor. Accordingly, there are 7,500,000 Founder Shares issued and outstanding as of September 30, 2021 and December 31, 2020.

The initial stockholders have agreed that, subject to certain limited exceptions, the Founder Shares will not be transferred, assigned or sold until the earlier of (A) one year after the completion of a Business Combination or (B) subsequent to a Business Combination, (x) if the last reported sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock capitalizations, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the stockholders having the right to exchange their common stock for cash, securities or other property.

**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

***Administrative Services Agreement***

The Company entered into an agreement, commencing on October 20, 2020 through the earlier of the Company's consummation of a Business Combination and its liquidation, to pay the Sponsor a total of up to \$10,000 per month for office space, utilities and secretarial and administrative support. For the three and nine months ended September 30, 2021 and the period from March 24, 2020 (inception) through September 30, 2020, the Company incurred \$30,000 and \$90,000 and no amount in fees for these services, respectively, of which \$110,000 of such fees is included in accounts payable and accrued expenses in the accompanying balance sheets.

***Related Party Loans***

In order to finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or certain of the Company's directors and officers may, but are not obligated to, loan the Company funds as may be required ("Working Capital Loans"). If the Company completes a Business Combination, the Company would repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans would be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans, but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender's discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into warrants of the post-Business Combination entity at a price of \$1.00 per warrant. The warrants would be identical to the Private Placement Warrants. As of September 30, 2021 and December 31, 2020, there were no amounts outstanding under any Working Capital Loans.

**NOTE 7. COMMITMENTS**

***Registration Rights***

Pursuant to a registration and stockholder rights agreement entered into on October 20, 2020, the holders of the Founder Shares, Private Placement Warrants and warrants that may be issued upon conversion of Working Capital Loans (and any Class A common stock issuable upon the exercise of the Private Placement Warrants and warrants issued upon conversion of the Working Capital Loans and upon conversion of the Founder Shares) will be entitled to registration rights requiring the Company to register such securities for resale (in the case of the Founder Shares, only after conversion to Class A common stock). The holders of the majority of these securities are entitled to make up to three demands, excluding short form demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. However, the registration and stockholder rights agreement provides that the Company will not permit any registration statement filed under the Securities Act to become effective until termination of the applicable lock-up period. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

***Underwriting Agreement***

The underwriter is entitled to a deferred fee of \$0.35 per Unit, or \$10,500,000 in the aggregate. Subject to the terms of the underwriting agreement, (i) the deferred fee will be placed in the Trust Account and released to the underwriter only upon the completion of a Business Combination and (ii) the deferred fee will be waived by the underwriter in the event that the Company does not complete a Business Combination.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

***Business Combination Agreement***

On May 19, 2021, the Company entered into a business combination agreement (the “Business Combination Agreement”) with VNNA Merger Sub Corp., a Delaware corporation and direct, wholly-owned subsidiary of the Company, Jam City, Inc., a Delaware corporation (“Jam City”), and New Jam City, LLC, a Delaware limited liability company and indirect, wholly-owned subsidiary of Jam City, relating to the contemplated Business Combination between the Company and Jam City. The Business Combination Agreement was mutually terminated by the parties thereto on July 23, 2021. The Company intends to continue to pursue a Business Combination.

**NOTE 8. STOCKHOLDERS’ EQUITY**

***Preferred Stock*** — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company’s board of directors. At September 30, 2021 and December 31, 2020, there were no shares of preferred stock issued or outstanding.

***Class A Common Stock*** — The Company is authorized to issue 100,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. At September 30, 2021 and December 31, 2020, there were 30,000,000 shares of Class A common stock issued and outstanding, including Class A common stock subject to possible redemption which is presented as temporary equity.

***Class B Common Stock*** — The Company is authorized to issue 10,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. At September 30, 2021 and December 31, 2020, there were 7,500,000 shares of Class B common stock issued and outstanding.

Holders of Class B common stock will have the right to elect all of the Company’s directors prior to a Business Combination. Holders of Class A common stock and Class B common stock will vote together as a single class on all other matters submitted to a vote of stockholders except as required by law.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of a Business Combination on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts offered in the Initial Public Offering and related to the closing of a Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of Class B common stock agree to waive such adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the sum of the total number of all shares of common stock outstanding upon the completion of the Initial Public Offering plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with a Business Combination (excluding any shares or equity-linked securities issued, or to be issued, to any seller in a Business Combination and any private placement-equivalent warrants issued upon conversion of Working Capital Loans).

**NOTE 9. WARRANT LIABILITIES**

As of September 30, 2021 and December 31, 2020, there were 10,000,000 Public Warrants and 8,000,000 Private Placement Warrants outstanding.

Public Warrants may only be exercised for a whole number of shares. No fractional shares will be issued upon exercise of the Public Warrants. The Public Warrants will become exercisable 30 days after the completion of a Business Combination. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

The Company will not be obligated to deliver any Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A common stock underlying the warrants is then effective and a prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration. No warrant will be exercisable and the Company will not be obligated to issue a share of Class A common stock upon exercise of a warrant unless the share of Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company will agree that as soon as practicable, but in no event later than twenty business days after the closing of a Business Combination, the Company will use its commercially reasonable efforts to file with the SEC a registration statement for the registration, under the Securities Act, of the shares of Class A common stock issuable upon exercise of the warrants. The Company will use its commercially reasonable efforts to cause the same to become effective within 60 business days following a Business Combination and to maintain the effectiveness of such registration statement, and a current prospectus relating thereto, until the expiration of the warrants in accordance with the provisions of the warrant agreement. Notwithstanding the above, if the Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elects, the Company will not be required to file or maintain in effect a registration statement, but the Company will be required to use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

**Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00.** Once the Public Warrants become exercisable, the Company may redeem the Public Warrants (except with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon not less than 30 days’ prior written notice of redemption to each warrant holder; and
- if, and only if, the last reported sale price of the Class A common stock for any 20 trading days within a 30-trading day period ending three business days before the Company sends the notice of redemption to the warrant holders (the “Reference Value”) equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like).

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

**Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00.** Once the Public Warrants become exercisable, the Company may redeem the Public Warrants:

- in whole and not in part;
- at \$0.10 per warrant upon a minimum of 30 days’ prior written notice of redemption; provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares based on the redemption date and the fair market value of the Class A common stock;
- if, and only if, the Reference Value equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like); and
- if the Reference Value is less than \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like), the Private Placement Warrants must also be concurrently called for redemption on the same terms as the outstanding Public Warrants, as described above.
- if, and only if, there is an effective registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating thereto available throughout the 30-day period after written notice of redemption is given, or an exemption from registration is available.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

If the Company calls the Public Warrants for redemption, management will have the option to require all holders that wish to exercise the Public Warrants to do so on a “cashless basis,” as described in the warrant agreement. The exercise price and number of shares of Class A common stock issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend, or recapitalization, reorganization, merger or consolidation. However, the warrants will not be adjusted for issuance of Class A common stock at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of warrants will not receive any of such funds with respect to their warrants, nor will they receive any distribution from the Company’s assets held outside of the Trust Account with the respect to such warrants. Accordingly, the warrants may expire worthless.

In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per Class A common (with such issue price or effective issue price to be determined in good faith by the Company’s board of directors and, in the case of any such issuance to the initial stockholders or their affiliates, without taking into account any Founder Shares held by the initial stockholders or their affiliates, as applicable, prior to such issuance) (the “Newly Issued Price”), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the consummation of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company’s Class A common stock during the 20 trading day period starting on the trading day prior to the day on which the Company consummates a Business Combination (such price, the “Market Value”) is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the Newly Issued Price, and the \$10.00 and \$18.00 per share redemption trigger prices will be adjusted (to the nearest cent) to be equal to 100% and 180% of the higher of the Market Value and the Newly Issued Price, respectively.

The Private Placement Warrants are identical to the Public Warrants underlying the Units sold in the Initial Public Offering, except that the Private Placement Warrants and the Class A common stock issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or salable until 30 days after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

**NOTE 10. FAIR VALUE MEASUREMENTS**

The Company follows the guidance in ASC 820 for its financial assets and liabilities that are re-measured and reported at fair value at each reporting period, and non-financial assets and liabilities that are re-measured and reported at fair value at least annually.

The fair value of the Company’s financial assets and liabilities reflects management’s estimate of amounts that the Company would have received in connection with the sale of the assets or paid in connection with the transfer of the liabilities in an orderly transaction between market participants at the measurement date. In connection with measuring the fair value of its assets and liabilities, the Company seeks to maximize the use of observable inputs (market data obtained from independent sources) and to minimize the use of unobservable inputs (internal assumptions about how market participants would price assets and liabilities). The following fair value hierarchy is used to classify assets and liabilities based on the observable inputs and unobservable inputs used in order to value the assets and liabilities:

- Level 1: Quoted prices in active markets for identical assets or liabilities. An active market for an asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2: Observable inputs other than Level 1 inputs. Examples of Level 2 inputs include quoted prices in active markets for similar assets or liabilities and quoted prices for identical assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs based on our assessment of the assumptions that market participants would use in pricing the asset or liability.

**DPCM CAPITAL, INC.**  
**NOTES TO CONDENSED FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2021**  
**(Unaudited)**

The following table presents information about the Company's assets and liabilities that are measured at fair value on a recurring basis at September 30, 2021 and December 31, 2020, and indicates the fair value hierarchy of the valuation inputs the Company utilized to determine such fair value:

Description	Level	September 30, 2021	Level	December 31, 2020
<b>Assets:</b>				
Marketable securities held in Trust Account	1	\$300,146,011	1	\$300,058,477
<b>Liabilities:</b>				
Warrant Liability – Public Warrants	1	\$ 6,200,000	3	\$ 21,500,000
Warrant Liability – Private Placement Warrants	2	4,960,000	3	\$ 17,200,000

The Warrants are accounted for as liabilities in accordance with ASC 815-40 and are presented within warrant liabilities in the condensed balance sheets. The warrant liabilities are measured at fair value at inception and on a recurring basis, with changes in fair value presented within change in fair value of warrant liabilities in the condensed statements of operations.

The Warrants were initially valued using a binomial lattice model, which is considered to be a Level 3 fair value measurement. The binomial lattice model's primary unobservable input utilized in determining the fair value of the Warrants is the expected volatility of the common stock. The expected volatility as of the Initial Public Offering date was derived from observable public warrant pricing on comparable 'blank-check' companies without an identified target. The expected volatility as of subsequent valuation dates was implied from the Company's own Public Warrant pricing. For periods subsequent to the detachment of the Public Warrants from the Units, the close price of the Public Warrant price was used as the fair value of the Warrants as of each relevant date. The measurement of the Public Warrants after the detachment of the Public Warrants from the Units is classified as Level 1 due to the use of an observable market quote in an active market. The subsequent measurements of the Private Placement Warrants after the detachment of the Public Warrants from the Units are classified as Level 2 due to the use of an observable market quote for a similar asset in an active market.

The estimated fair value of the Level 3 Warrants was determined based upon the following significant inputs:

	December 31, 2020
Exercise price	\$ 11.50
Stock price	\$ 10.41
Volatility	28.4%
Term	5.00
Risk-free rate	0.39%
Dividend yield	0.00%

The following table presents the changes in the fair value of Level 3 warrant liabilities:

	Private Placement	Public	Warrant Liabilities
Fair value as of January 1, 2021	\$ 17,200,000	\$ 21,500,000	\$ 38,700,000
Change in fair value	(7,120,000)	(9,000,000)	(27,540,000)
Transfers to Level 1	—	(12,500,000)	(12,500,000)
Transfers to Level 2	(10,080,000)	—	(10,080,000)
Fair value as of September 30, 2021	\$ —	\$ —	\$ —

Transfers to/from Levels 1, 2 and 3 are recognized at the beginning of the reporting period in which a change in valuation technique or methodology occurs. The estimated fair value of the Public Warrants transferred from a Level 3 measurement to a Level 1 fair value measurement during the nine months ended September 30, 2021 was approximately \$12.5 million. The estimated fair value of the Private Placement Warrants transferred from a Level 3 measurement to a Level 2 fair value measurement during the nine months ended September 30, 2021 was approximately \$10.1 million.

**NOTE 11. SUBSEQUENT EVENTS**

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to the date that the condensed financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the condensed financial statements.

## **Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.**

References in this report (the “Quarterly Report”) to “we,” “us” or the “Company” refer to DPCM Capital, Inc. References to our “management” or our “management team” refer to our officers and directors, and references to the “Sponsor” refer to CDPM Sponsor Group, LLC. The following discussion and analysis of the Company’s financial condition and results of operations should be read in conjunction with the financial statements and the notes thereto contained elsewhere in this Quarterly Report. Certain information contained in the discussion and analysis set forth below includes forward-looking statements that involve risks and uncertainties.

### **Special Note Regarding Forward-Looking Statements**

This Quarterly Report includes “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (the “Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), that are not historical facts and involve risks and uncertainties that could cause actual results to differ materially from those expected and projected. All statements, other than statements of historical fact included in this Quarterly Report including, without limitation, statements in this “Management’s Discussion and Analysis of Financial Condition and Results of Operations” regarding the Company’s financial position, business strategy and the plans and objectives of management for future operations, are forward-looking statements. Words such as “expect,” “believe,” “anticipate,” “intend,” “estimate,” “seek” and variations and similar words and expressions are intended to identify such forward-looking statements. Such forward-looking statements relate to future events or future performance, but reflect management’s current beliefs, based on information currently available. A number of factors could cause actual events, performance or results to differ materially from the events, performance and results discussed in the forward-looking statements. For information identifying important factors that could cause actual results to differ materially from those anticipated in the forward-looking statements, please refer to the Risk Factors section of the Company’s Annual Report on Form 10-K/A filed with the U.S. Securities and Exchange Commission (the “SEC”) on June 24, 2021 (the “Form 10-K/A”). The Company’s securities filings can be accessed on the EDGAR section of the SEC’s website at [www.sec.gov](http://www.sec.gov). Except as expressly required by applicable securities law, the Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

This Management’s Discussion and Analysis of Financial Condition and Results of Operations gives effect to the restatement of our financial statements as of December 31, 2020, March 31, 2021, and June 30, 2021. Management identified errors made in our historical financial statements where, at the closing of our Initial Public Offering, we improperly valued our Class A common stock subject to possible redemption. We previously determined the Class A common stock subject to possible redemption to be equal to the redemption value of \$10.00 per share of Class A common stock while also taking into consideration a redemption cannot result in net tangible assets being less than \$5,000,001. Management determined that the Class A common stock issued during the Initial Public Offering can be redeemed or become redeemable subject to the occurrence of future events considered outside of the Company’s control. Therefore, management concluded that the redemption value should include all shares of Class A common stock subject to possible redemption, resulting in the shares of Class A common stock subject to possible redemption being equal to their redemption value. As a result, management has noted a restatement error related to temporary equity and permanent equity. This resulted in a restatement to the initial carrying value of the Class A common stock subject to possible redemption with the offset recorded to additional paid-in capital (to the extent available), accumulated deficit and Class A common stock.

### **Overview**

We are a blank check company formed under the laws of the State of Delaware on March 24, 2020 for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (“Business Combination”). We intend to effectuate our initial Business Combination using cash from the proceeds of the initial public offering (“Initial Public Offering”) and the sale of the private placement warrants (“Private Placement Warrants”) that occurred simultaneously with the completion of the Initial Public Offering (the “Private Placement”), our capital stock, debt or a combination of cash, stock and debt.

We expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to complete our initial Business Combination will be successful.

### **Recent Developments**

#### *Jam City Business Combination*

On May 19, 2021, we entered into a business combination agreement (the “Business Combination Agreement”) with VNNA Merger Sub Corp., a Delaware corporation and our direct, wholly-owned subsidiary (“Merger Sub”), Jam City, Inc., a Delaware corporation (“Jam City”), and New Jam City, LLC, a Delaware limited liability company and indirect, wholly-owned subsidiary of Jam City (“New JC LLC”), relating to the contemplated Business Combination between the Company and Jam City (the “Jam City Business Combination”).

On July 23, 2021, we entered into a Termination of Business Combination Agreement (the “Termination Agreement”) with Merger Sub, the Sponsor, Jam City and New JC LLC, pursuant to which the parties agreed to mutually terminate the Business Combination Agreement effective as of July 23, 2021. As a result of the termination of the Business Combination Agreement, the Business Combination Agreement is void and there is no liability under the Business Combination Agreement on the part of any party thereto, except as set forth in the Business Combination Agreement, and each of the transaction agreements entered into in connection with the Business Combination Agreement, including, but not limited to, (i) the Sponsor Support Agreement, dated as of May 19, 2021, by and among the Company, the Sponsor, Jam City and New JC LLC, (ii) the Stockholder Support Agreement, dated as of May 19, 2021, by and among the Company and certain stockholders of Jam City, and (iii) the subscription agreements entered into between the Company and certain investors concurrently with the execution of the Business Combination Agreement, dated as of May 19, 2021, were automatically either terminated in accordance with their terms or of no further force and effect. Pursuant to the Termination Agreement, subject to certain exceptions, the Company and Jam City also agreed, on behalf of themselves and their respective related parties, to a release of claims relating to the Jam City Business Combination. We intend to continue to pursue a Business Combination.

## Results of Operations

We have neither engaged in any operations nor generated any revenues to date. Our only activities through September 30, 2021 were organizational activities, those necessary to prepare for the Initial Public Offering, described below, and, since the Initial Public Offering, our activity has been limited to identifying a target company for a Business Combination. We do not expect to generate any operating revenues until after the completion of our initial Business Combination. We generate non-operating income in the form of interest income on marketable securities held in the trust account established for the benefit of our public stockholders in connection with the Initial Public Offering (the “Trust Account”). We incur expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses in connection with searching for, and completing, a Business Combination.

For the three months ended September 30, 2021, we had net income of \$10,592,497, which consists of changes in fair value of warrant liabilities of \$12,060,000 and interest earned on marketable securities held in the Trust Account of \$26,147, offset by operating costs of \$1,489,772 and an unrealized loss on marketable securities held in the Trust Account of \$3,878.

For the nine months ended September 30, 2021, we had net income of \$24,656,559, which consists of the changes in fair value of warrant liabilities of \$27,540,000 and interest earned on marketable securities held in the Trust Account of \$97,695, offset by operating costs of \$2,970,975 and unrealized loss on marketable securities held in the Trust Account of \$10,161.

For the period from March 24, 2020 (inception) through September 30, 2020, we had net loss \$1,000, which consisted of formation and operating costs.

## Liquidity and Capital Resources

Until the consummation of the Initial Public Offering, our only source of liquidity was an initial purchase of Class B common stock by the Sponsor and loans from the Sponsor.

On October 23, 2020, we consummated the Initial Public Offering of 30,000,000 units (“Units”), at \$10.00 per unit, generating gross proceeds of \$300,000,000. Simultaneously with the closing of the Initial Public Offering, we consummated the Private Placement of 8,000,000 Private Placement Warrants to the Sponsor at a price of \$1.00 per Private Placement Warrant, generating gross proceeds of \$8,000,000.

Following the Initial Public Offering and the sale of the Private Placement Warrants, a total of \$300,000,000 was placed in the Trust Account. We incurred \$16,977,876 in transaction costs, including \$6,000,000 of underwriting fees, \$10,500,000 of deferred underwriting fees and \$477,876 of other costs.

For the nine months ended September 30, 2021, cash used in operating activities was \$820,224. Net income of \$24,656,559 was affected by interest earned on marketable securities held in the Trust Account of \$97,695, an unrealized loss on marketable securities held in the Trust Account of \$10,161, and the change in fair value of warrant liabilities of \$27,540,000. Changes in operating assets and liabilities provided \$2,150,751 of cash for operating activities.

As of September 30, 2021, we had marketable securities held in the Trust Account of \$300,146,011 (including \$97,695 of interest income and unrealized gains) consisting of U.S. Treasury Bills with a maturity of 185 days or less. Interest income on the balance in the Trust Account may be used by us to pay taxes. Through September 30, 2021, we have not withdrawn any interest earned from the Trust Account.

We intend to use substantially all of the funds held in the Trust Account, including any amounts representing interest earned on the Trust Account (less deferred underwriting commissions and income taxes payable), to complete our initial Business Combination. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our initial Business Combination, the remaining proceeds held in the Trust Account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

As of September 30, 2021, we had cash of \$248,583. We intend to use the funds held outside the Trust Account primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices, plants or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, and structure, negotiate and complete a Business Combination.

---

## [Table of Contents](#)

In order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor or certain of our directors and officers or their affiliates may, but are not obligated to, loan us funds as may be required. If we complete our initial Business Combination, we would repay such loaned amounts. In the event that our initial Business Combination does not close, we may use a portion of the working capital held outside the Trust Account to repay such loaned amounts but no proceeds from our Trust Account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into warrants identical to the Private Placement Warrants, at a price of \$1.00 per warrant, at the option of the lender.

We will need to raise additional capital through loans or additional investments from our initial stockholders, officers, directors or their affiliates. Our initial stockholders, officers, directors or their affiliates may, but are not obligated to, loan us funds, from time to time or at any time, in whatever amount they deem reasonable in their sole discretion, to meet our working capital needs. Accordingly, we may not be able to obtain additional financing. If we are unable to raise additional capital, we may be required to take additional measures to conserve liquidity, which could include, but not necessarily be limited to, curtailing operations, suspending the pursuit of a potential transaction and reducing overhead expenses. We cannot provide any assurance that new financing will be available to us on commercially acceptable terms, if at all. These conditions raise substantial doubt about the Company's ability to continue as a going concern through one year and one day from the issuance of these financial statements.

### **Off-Balance Sheet Arrangements**

We did not have any off-balance sheet arrangements as of September 30, 2021.

### **Contractual Obligations**

We do not have any long-term debt obligations, capital lease obligations, operating lease obligations, purchase obligations or long-term liabilities, other than an agreement to pay the Sponsor a monthly fee of \$10,000 for office space, utilities and secretarial and administrative support. We began incurring these fees on October 20, 2020 and will continue to incur these fees monthly until the earlier of the completion of our initial Business Combination and our liquidation.

The underwriter of the Initial Public Offering is entitled to a deferred fee of \$0.35 per Unit, or \$10,500,000 in the aggregate. Subject to the terms of the underwriting agreement, (i) the deferred fee was placed in the Trust Account and will be released to the underwriter only upon the completion of a Business Combination and (ii) the deferred fee will be waived by the underwriter in the event that we do not complete a Business Combination.

### **Critical Accounting Policies**

The preparation of condensed financial statements and related disclosures in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and income and expenses during the periods reported. Actual results could materially differ from those estimates. We have identified the following critical accounting policies:

#### *Warrant Liabilities*

We account for our warrants in accordance with the guidance contained in Accounting Standards Codification ("ASC") 815-40 under which the warrants do not meet the criteria for equity treatment and must be recorded as liabilities. Accordingly, we classify the warrants as liabilities at their fair value and adjust the warrants to fair value at each reporting period. This liability is subject to re-measurement at each balance sheet date until exercised, and any change in fair value is recognized in our statement of operations. The Private Placement Warrants and the public warrants for periods where no observable traded price was available are valued using a binomial lattice model. For periods subsequent to the detachment of the public warrants from the Units, the public warrant quoted market price was used as the fair value as of each relevant date.

#### *Class A Common Stock Subject to Possible Redemption*

We account for our Class A common stock subject to possible redemption in accordance with the guidance in ASC Topic 480 "Distinguishing Liabilities from Equity." Class A common stock subject to mandatory redemption is classified as a liability instrument and measured at fair value. Conditionally redeemable common stock (including common stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within our control) is classified as temporary equity. At all other times, common stock is classified as stockholders' equity. Our Class A common stock features certain redemption rights that are considered to be outside of our control and subject to occurrence of uncertain future events. Accordingly, Class A common stock subject to possible redemption is presented at redemption value as temporary equity, outside of the stockholders' equity section of our condensed balance sheets.

---

## [Table of Contents](#)

### *Net Income (Loss) Per Common Stock*

Net income (loss) per common stock is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding for the period. We apply the two-class method in calculating income (loss) per common stock. Accretion associated with the redeemable shares of Class A common stock is excluded from income (loss) per common stock as the redemption value approximates fair value.

### *Recent Accounting Standards*

In August 2020, the Financial Accounting Standards Board issued Accounting Standards Update (“ASU”) 2020-06, Debt — Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging — Contracts in Entity’s Own Equity (Subtopic 815-40) (“ASU 2020-06”) to simplify accounting for certain financial instruments. ASU 2020-06 eliminates the current models that require separation of beneficial conversion and cash conversion features from convertible instruments and simplifies the derivative scope exception guidance pertaining to equity classification of contracts in an entity’s own equity. The new standard also introduces additional disclosures for convertible debt and freestanding instruments that are indexed to and settled in an entity’s own equity. ASU 2020-06 amends the diluted earnings per share guidance, including the requirement to use the if-converted method for all convertible instruments. ASU 2020-06 is effective January 1, 2022 and should be applied on a full or modified retrospective basis, with early adoption permitted beginning on January 1, 2021. We are currently assessing the impact, if any, that ASU 2020-06 would have on our financial position, results of operations or cash flows.

Management does not believe that any other recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on our condensed financial statements.

### **Item 3. Quantitative and Qualitative Disclosures About Market Risk.**

We are a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and are not required to provide the information otherwise required under this item.

### **Item 4. Controls and Procedures.**

#### *Evaluation of Disclosure Controls and Procedures*

Disclosure controls and procedures are designed to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial and accounting officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial and accounting officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the fiscal quarter ended September 30, 2021. Based on this evaluation, our principal executive officer and principal financial and accounting officer concluded that our disclosure controls and procedures were not effective, due solely to the material weaknesses in our internal control over financial reporting related to the restatements of our previously issued financial statements to (i) reclassify our warrants as liabilities (as described in the Form 10-K/A) and (ii) reclassify all shares of our Class A common stock subject to possible redemption as temporary equity (as described in Note 2 of the notes to the financial statements included herein). As a result, we performed additional analysis as deemed necessary to ensure that our financial statements were prepared in accordance with U.S. generally accepted accounting principles. Accordingly, management believes that the financial statements included in this Quarterly Report present fairly in all material respects our financial position, results of operations and cash flows for the period presented.

#### *Changes in Internal Control Over Financial Reporting*

Except as set forth below, there was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the fiscal quarter of 2021 covered by this Quarterly Report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

While we have processes to identify and appropriately apply applicable accounting requirements, in light of the material weaknesses identified and the resulting restatements, our principal executive officer and principal financial and accounting officer performed additional accounting and financial analyses related to the accounting for our complex financial instruments, including consulting with subject matter experts. Management has expended, and will continue to expend, a substantial amount of effort and resources for the remediation and improvement of our internal control over financial reporting. We have enhanced and plan to continue to enhance our system of evaluating and implementing the accounting standards that apply to our financial statements, including through enhanced analyses by our personnel and third-party professionals with whom we consult regarding complex accounting applications. The elements of our remediation plan can only be accomplished over time, and we can offer no assurance that these initiatives will ultimately have the intended effects.

## PART II - OTHER INFORMATION

### Item 1. Legal Proceedings.

None.

### Item 1A. Risk Factors.

Factors that could cause our actual results to differ materially from those in this Quarterly Report are any of the risks described in the Form 10-K/A. Any of these factors could result in a significant or material adverse effect on our results of operations or financial condition. Additional risk factors not presently known to us or that we currently deem immaterial may also impair our business or results of operations. Except as set forth below, as of the date of this Quarterly Report, there have been no material changes to the risk factors disclosed in the Form 10-K/A, except we may disclose changes to such factors or disclose additional factors from time to time in our future filings with the SEC.

#### ***Changes in the market for directors and officers liability insurance could make it more difficult and more expensive for us to negotiate and complete an initial business combination.***

In recent months, the market for directors and officers liability insurance for special purpose acquisition companies has changed in ways adverse to us and our management team. Fewer insurance companies are offering quotes for directors and officers liability coverage, the premiums charged for such policies have generally increased and the terms of such policies have generally become less favorable. These trends may continue into the future.

The increased cost and decreased availability of directors and officers liability insurance could make it more difficult and more expensive for us to negotiate and complete an initial business combination. In order to obtain directors and officers liability insurance or modify its coverage as a result of becoming a public company, the post-business combination entity might need to incur greater expense and/or accept less favorable terms. Furthermore, any failure to obtain adequate directors and officers liability insurance could have an adverse impact on the post-business combination's ability to attract and retain qualified officers and directors.

In addition, after completion of any initial business combination, our directors and officers could be subject to potential liability from claims arising from conduct alleged to have occurred prior to such initial business combination. As a result, in order to protect our directors and officers, the post-business combination entity may need to purchase additional insurance with respect to any such claims ("run-off insurance"). The need for run-off insurance would be an added expense for the post-business combination entity and could interfere with or frustrate our ability to consummate an initial business combination on terms favorable to our investors.

#### ***Our warrants are accounted for as liabilities and the changes in value of our warrants could have a material effect on our financial results.***

On April 12, 2021, the staff of the SEC (the "SEC Staff") issued a public statement entitled "Staff Statement on Accounting and Reporting Considerations for Warrants issued by Special Purpose Acquisition Companies ("SPACs")" (the "SEC Staff Statement"), wherein the SEC Staff expressed its view that certain terms and conditions common to SPAC warrants may require the warrants to be classified as liabilities on the SPAC's balance sheet as opposed to being treated as equity. Specifically, the SEC Staff Statement focused on certain settlement terms and provisions related to certain tender offers following a business combination, which terms are similar to those contained in the warrant agreement governing our warrants. As a result of the SEC Staff Statement, we re-evaluated the accounting treatment of our warrants, and pursuant to the guidance in ASC 815-40, determined the warrants should be classified as derivative liabilities measured at fair value on our balance sheet, with any changes in fair value to be reported each period in earnings on our statement of operations.

As a result of the recurring fair value measurement, our financial statements may fluctuate quarterly based on factors which are outside of our control. Due to the recurring fair value measurement, we expect that we will recognize non-cash gains or losses on our warrants each reporting period and that the amount of such gains or losses could be material.

#### ***We have identified material weaknesses in our internal control over financial reporting as of September 30, 2021. If we are unable to develop and maintain an effective system of internal control over financial reporting, we may not be able to accurately report our financial results in a timely manner, which may adversely affect investor confidence in us and materially and adversely affect our business and operating results.***

Following the issuance of the SEC Staff Statement, after consultation with our independent registered public accounting firm, our management and our audit committee concluded that, in light of the SEC Staff Statement, it was appropriate to restate our previously issued audited financial statements as of December 31, 2020 and for the period from March 24, 2020 (inception) through December 31, 2020. See "—Our warrants are accounted for as liabilities and the changes in value of our warrants could have a material effect on our financial results." As part of such process, we identified a material weakness in our internal control over financial reporting.

Additionally, in connection with the preparation of our financial statements as of September 30, 2021, management identified errors made in our historical financial statements where, at the closing of the Initial Public Offering, we improperly valued our Class A common stock subject to possible redemption. After consultation with our independent registered public accounting firm, our management and our audit committee concluded that it was appropriate to restate our financial statements as of December 31, 2020, March 31, 2021, and June 30, 2021. As part of such process, we identified an additional material weakness in our internal control over financial reporting.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented, or detected and corrected on a timely basis.

Effective internal controls are necessary for us to provide reliable financial reports and prevent fraud. We continue to evaluate steps to remediate the identified material weaknesses. These remediation measures may be time consuming and costly and there is no assurance that these initiatives will ultimately have the intended effects.

If we identify any new material weaknesses in the future, any such newly identified material weakness could limit our ability to prevent or detect a misstatement of our accounts or disclosures that could result in a material misstatement of our annual or interim financial statements. In such case, we may be unable to maintain compliance with securities law requirements regarding timely filing of periodic reports in addition to applicable stock exchange listing requirements, investors may lose confidence in our financial reporting and our stock price may decline as a result. We cannot assure you that the measures we have taken to date, or any measures we may take in the future, will be sufficient to avoid potential future material weaknesses.

*We, and following our initial business combination, the post-business combination company, may face litigation and other risks as a result of the material weaknesses in our internal control over financial reporting.*

As part of the restatements of our previously issued financial statements, we identified material weaknesses in our internal control over financial reporting. As a result of such material weaknesses, the restatements, the changes in accounting for our warrants and shares of our Class A common stock subject to possible redemption and other matters raised or that may in the future be raised by the SEC, we face potential for litigation or other disputes which may include, among others, claims invoking the federal and state securities laws, contractual claims or other claims arising from the restatements and material weaknesses in our internal control over financial reporting and the preparation of our financial statements. As of the date of this report, we have no knowledge of any such litigation or dispute. However, we can provide no assurance that such litigation or dispute will not arise in the future. Any such litigation or dispute, whether successful or not, could have a material adverse effect on our business, results of operations and financial condition or our ability to complete a business combination.

#### **Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**

On June 22, 2020, we issued 5,750,000 shares (“Founder Shares”) of Class B common stock, par value \$0.0001 per share, to the Sponsor for an aggregate purchase price of \$25,000, or approximately \$0.004 per share, pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. On August 18, 2020, the Sponsor transferred an aggregate of 80,000 Founder Shares to our independent directors for their original purchase price. Subsequently, on August 27, 2020, the Sponsor transferred an aggregate of 70,000 Founder Shares to certain of our special advisors for their original purchase price. On October 2, 2020, we effected a stock dividend of 1,437,500 shares with respect to our Class B common stock, resulting in our initial stockholders holding an aggregate of 7,187,500 Founder Shares. Following such dividend, on October 2, 2020, the Sponsor transferred 18,750 Founder Shares to one of our special advisors for their original purchase price. On October 20, 2020, we effected a further stock dividend of 1,437,500 shares with respect to our Class B common stock, resulting in our initial stockholders holding an aggregate of 8,625,000 Founder Shares. On December 7, 2020, the underwriter’s over-allotment option expired unexercised, resulting in the forfeiture of 1,125,000 shares by the Sponsor and our initial stockholders holding an aggregate of 7,500,000 Founder Shares. No underwriting discounts or commissions were paid with respect to such issuances.

---

## [Table of Contents](#)

On October 23, 2020, we consummated the Initial Public Offering of 30,000,000 Units, with each Unit consisting of one share of Class A common stock, par value \$0.0001 per share, and one-third of one redeemable warrant, each whole warrant entitling the holder thereof to purchase one share of Class A common stock at an exercise price of \$11.50 per share, subject to adjustment. Each whole warrant will become exercisable 30 days after the completion of our initial Business Combination and will expire five years after the completion of our initial Business Combination, or earlier upon redemption or liquidation. The Units were sold at an offering price of \$10.00 per Unit, generating total gross proceeds of \$300,000,000.

UBS Securities LLC acted as sole book-running manager of the Initial Public Offering. The securities in the offering were registered under the Securities Act on registration statements on Form S-1 (File Nos. 333-249274 and 333-249575). The registration statements became effective on October 20, 2020.

Simultaneously with the consummation of the Initial Public Offering, we consummated the Private Placement of 8,000,000 Private Placement Warrants to the Sponsor at a price of \$1.00 per Private Placement Warrant, generating total proceeds of \$8,000,000. The issuance was made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. The Sponsor, as purchaser, is an accredited investor for purposes of Rule 501 of Regulation D. The Private Placement Warrants are identical to the warrants underlying the Units, except that, if held by Sponsor or its permitted transferees, they (i) may be exercised on a cashless basis and (ii) are not subject to redemption. In addition, the Private Placement Warrants (and the shares of Class A common stock issuable upon exercise of such Private Placement Warrants) will, subject to certain limited exceptions, be subject to transfer restrictions until 30 days after the completion of our initial Business Combination. No underwriting discounts or commissions were paid with respect to the Private Placement.

We paid a total of \$6,000,000 in underwriting discounts and commissions and \$477,876 for other costs and expenses related to the Initial Public Offering. In addition, UBS Securities LLC agreed to defer \$10,500,000 in underwriting discounts and commissions, which amount will be payable upon consummation of our initial Business Combination, if consummated. After deducting the underwriting discounts and commissions (excluding the deferred portion of \$10,500,000 in underwriting discounts and commissions) and the offering expenses, the total net proceeds from our Initial Public Offering and the Private Placement was \$301,522,124, of which \$300,000,000 was placed in the Trust Account.

For a description of the use of the proceeds generated in the Initial Public Offering, see Part I, Item 2 of this Quarterly Report.

### **Item 3. Defaults Upon Senior Securities.**

None.

### **Item 4. Mine Safety Disclosures.**

Not Applicable.

### **Item 5. Other Information.**

None.

Title: Chief Financial Officer  
(Principal Financial and Accounting Officer)

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER  
PURSUANT TO RULES 13a-14(a) AND 15(d)-14(a) UNDER THE SECURITIES EXCHANGE ACT OF 1934,  
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Emil Michael, certify that:

1. I have reviewed this quarterly report on Form 10-Q of DPCM Capital, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) (Paragraph omitted pursuant to SEC Release Nos. 33-8238/34-47986 and 33-8392/34-49313);
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO  
18 U.S.C. SECTION 1350  
AS ADOPTED PURSUANT TO  
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of DPCM Capital, Inc. (the "Company") on Form 10-Q for the quarterly period ended September 30, 2021, as filed with the Securities and Exchange Commission (the "Report"), I, Emil Michael, Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. §1350, as adopted pursuant to §906 of the Sarbanes-Oxley Act of 2002, that, to the best of my knowledge:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.

Dated: November 18, 2021

/s/ Emil Michael
